

The 7th

International Symposium of Advanced Energy Science

- Frontiers of Zero Emission Energy -

in conjunction with

International Workshop on Energy-Science Education
by Graduate School of Energy Science, Kyoto University

Organized by

Institute of Advanced Energy,
Kyoto University and
Joint Usage/Research Center for
Zero-Emission Energy Research, IAE

Venue

5-6 Sept. 2016
Clock Tower Centennial Hall,
Kyoto University

Parallel Seminar

7 Sept. 2016

Uji Campas, Kyoto University

Parallel Seminar I (Biomass)

Recent progress in wood biomass research

Parallel Seminar II (Solar)

Symposium on exploring novel principles for
highly efficient utilization of
solar energy 2016

Invited Speakers

Chinnusamy Saravanan (Solar)
Sona College of Technology

Gerald L Kulcinski (Fusion plasma)
University of Wisconsin-Madison

Eiji Masai (Biomass)
Nagaoka University of Technology

Young Uk Jeong (Ultrafast Lasers)
Korea Atomic Energy Research Institute

Atsushi Fukuyama (Fusion Plasma)
Kyoto University

Daisuke Shibata (Solar)
Department Head of Kazusa DNA Research Institute

Roland Ludwig (Biomass)
BOKU - University of Natural Resources and Life Sciences

Masahiro Shimizu (Solar)
Shinshu University

Yasushi Hayakawa (Light Sources)
Nihon University

Yoshihiko Nagashima (Fusion Plasma)
Kyushu University

Minoru Takeda (Biomass)
Yokohama National University

Naoyuki Hashimoto (Fusion Materials)
Hokkaido University

Akira Hasegawa (Fusion Materials)
Tohoku University

Takayasu Kawasaki (Ultrafast Lasers)
Tokyo University of Science
