

The 4th International Symposium of Advanced Energy Science

— Principle of Zero-Emission Energy —

Organized by

Institute of Advanced Energy, Kyoto University
and

Joint Usage/Research Center for Zero-Emission Energy Research, IAE

Date: September 30 - October 2, 2013

Venue: Kyoto University Uji Campus, Kyoto Japan

September 30: Oral Session I 9:30~17:00
Panel Discussion 17:00~17:50
“Sustainable future and Zero Emission Energy”
Poster Session 15:00~17:00

Invited speakers :

- ◆ H. Saptoadi (biomass)
Universitas Gadjah Mada, Indonesia
- ◆ K. Ikeda (optical antenna)
Hokkaido University, Japan
- ◆ H.K. Park (fusion energy)
Pohang University of Science and
Technology, Korea
- ◆ B. Fungtammasan (clean coal technology)
King Monkhut's University of
Technology Thonburi, Thailand
- ◆ J. Itatani (ultrafast lasers)
The University of Tokyo, Japan
- ◆ T. Muroga (fusion materials)
National Institute for Fusion Science, Japan
- ◆ R. Henk (energy)
Kyoto University, Japan
- ◆ B. McLellan (renewable energy)
Kyoto University, Japan

October 1: Oral Session II 9:30~10:45, 11:45~12:35
Poster Session 10:45~11:45
Parallel Seminar I 14:00~16:00

Invited speakers :

- ◆ J.-J. Kai (nuclear materials)
National Tsing Hua University, Taiwan
- ◆ F. Shishikura (free-electron laser)
Nihon University, Japan
- ◆ Y. Yoshimura (fusion plasma)
National Institute for Fusion Science, Japan

October 2: Parallel Seminar II 9:30~16:30
