

# We Love It Here!

## Comments from Kyoto University International Students

"Not only has Kyoto University been an exciting place to pursue my studies, it has also offered many opportunities to experience and get accustomed to a culture seemingly so different from my own. Kyoto itself has very quickly come to feel like home. Whilst offering all the attractions of a modern city, the peaceful retreat of the surrounding mountains and countryside is never more than a stone's throw away."

"At Kyoto University, I enjoy the freedom to learn many things, the vibrant campus life, and the beauty of Kyoto City. The warmth of Japanese society makes me feel right at home, while interacting with other foreign student friends allows me the opportunity for intercultural exchange. The relaxed but engaging atmosphere allows me to tackle the daily challenges of student life."

"Japan is the world leader in robotics, which is why I chose to study it here. Since I arrived, I've encountered dozens of these futuristic machines, such as the Geminoid-F android in a small cafe in Osaka. In my spare time, I play my flute along Kyoto's Kamogawa River while watching cranes soar past. It's an extraordinary mix of high-tech and serene beauty unlike anywhere else in the world."

"One of the reasons I chose Kyoto University is because it has a free academic culture and great tradition. The free atmosphere of "Kyodai" makes it possible to promote academic exchange among various fields. Furthermore, there are old temples and shrines everywhere in Kyoto. Wrapped in the free atmosphere and in the charm of the old capital, there is no doubt that you will enjoy your academic life at Kyoto University."

"Kyoto is a fascinating city that blends tradition and modernity. If you love nature, Kyoto is definitely the place you're looking for. The university is also one of the best in the world! It gave me the opportunity to do my research and participate in many international conferences. My four years have passed by like a beautiful dream. However, I will cherish these memories for the rest of my days!"

"A university with diverse academic programs, experienced researchers, dedicated staff, academic freedom, high-level research output and well equipped research laboratories. A well planned city with fast and efficient transport systems, but not forgetting its diverse historic sites. With a culture of honesty, respect and hard work, Kyoto University, Kyoto city and the Kyoto community provide a good environment for effective learning. I experienced a world-class academic environment at Kyoto University."

"If you are the kind of person who is eager to gain the latest world-class knowledge while enjoying the freedom of working at your own pace, Kyoto University is just the right place for you! As for Kyoto, aside from having many well preserved cultural heritage sites, there are the spring blossoms, verdant summers, fall maple leaves, and white winters. You will be amazed by the beautiful changes of the seasons."
