# Some of the chapters are exclusively on research funds. However, all other applies to use of all funds.

# We strive to achieve the highest possible accuracy in translating the documents from their official language of Japanese. Please note, however, that due to the nature of translated documents, accuracy is not guaranteed. The translated documents are produced for convenience only, and are not legally binding. The original documents in the Japanese language shall always take precedence over their translated versions.
1. Introduction

◆ Kyoto University's accounting systems have been established systematically with regulations, Q&A, manuals and other publications that are made available for viewing on the University website. This Handbook is a compilation of the points of importance and items requiring careful attention in the accounting rules that are essential in spending research funds, etc. Please note that Kyoto University accounting rules herein are not limited to the use of research funds but applies similarly to other expenses in education, research, medical treatment, etc., at the University.

◆ The publication of the Handbook is aimed at easier and clearer presentation of the University's rules on accounting and fund spending and greater understanding of the rules among members of the faculty, in order to prevent inappropriate and illegal use of competitive funds and other research funds as a result of inadequate understanding of the accounting procedures.

◆ The Handbook should be available at research offices and rooms at all times to check what should be done in everyday purchase of goods, etc.

◆ Be fully aware that public funds represented by competitive and other research funds are supplied with taxpayer money and inappropriate and illegal misuse is strictly not allowed.
2. The Responsibilities of Kyoto University Faculty Members and Other Personnel

◆ The rules related to ethical conduct are defined in *The Mission Statement of Kyoto University*, *The Responsibilities of the Kyoto University Faculty Member*, *Kyoto University Faculty and Staff Ethics Regulations* and *Promoting Research Integrity Regulations of Kyoto University*, etc., in *Research Activities*. In addition to these rules, be sure to comply with the following code of conduct.

**Important notes requiring attention especially of researchers**

1. Take pride in participation in research and be aware of its important mission.
2. Do not misuse research funds.
3. Do not involve in misuse research funds.
4. Do not allow others to misuse research funds.
5. Do not tacitly approve misuse of research funds.

**Important notes requiring attention of personnel handling research funds**

1. Ensure that all researchers understand the Regulations and the Guidelines.
2. Do not allow others to misuse research funds.
3. Do not tacitly approve misuse of research funds.

In criminal cases, Kyoto University faculty members will be classified as equivalent to public servants (“deemed to be public servants”). Acceptance of money or goods from suppliers, etc., is likely to be prosecuted as acceptance of bribe.

◆ The faculty members and other personnel of Kyoto University must be aware of one's mission in the respective area, such as education, research, support services, and University and academic department administration, and devote full energy into the implementation of one's duties in accordance with the Mission Statement of Kyoto University.

◆ By exerting one's greatest possible effort, the faculty member or employee must aspire to achieve the highest possible level in both education and research. Academic freedom is the most fundamental of requirements in realizing this and is honored in all aspects and venues of education and research, while paying adequate attention to social norms and code of ethics.

◆ Education is an endeavor to carry on academic and cultural heritages and to develop the abilities and build the character of each student. In doing this, the faculty member or employee shall not discriminate persons based on gender, ethnicity, creed, etc. Research is aimed at contributing to academic and cultural progress and to the aggregation of intellectual properties to be shared by mankind. In the promotion of this endeavor, the faculty member or employee is required to possess and maintain a strong sense of ethics and moral uprightness.

◆ Activities providing support in education and research and University and department administration are vitally important for uninterrupted development of KU. Each faculty member must recognize that the University is a social entity and commit oneself to self-refinement at all times, to enable fulfillment of one's responsibilities with highly specialized abilities and comprehensive outlook and contribute to the enrichment of KU's foundation in education and research and to the smooth administration and advancement of University and department administration.

*(The Responsibilities of the Kyoto University Faculty Member, July 20, 2004)*
3. Scope of Authority in Financial Administration at KU

◆ This scheme of the scope of authority for financial administration at KU is as follows. It is organized in a pyramidal structure with the President at the top.
◆ The scope of authority is defined clearly, with the responsibility for budget management and execution assigned to the officer responsible for budget control at each department (department head) and the responsibility for financial administration assigned to the accounting officer at each department (Manager of Administration Office/Administrative Manager).
◆ Accounting personnel will be conducting inspections and providing advice to researchers regarding the use of research funds, under the supervision of the accounting officer and in compliance with the rules. We look forward to your understanding and cooperation in this area.

A faculty member may be required to hold administrative responsibility as an employee in financial administration if the person engages in accounting, such as order placement and inspection.
4. Contract System at KU

**Concluding a contract**

◆ Contracts are based on the open tender scheme as a general rule at KU. However, negotiated contracts are authorized as exceptions in the following cases.

(Statement of Operational Procedures & Article 41, Accounting Regulations)

- When competition cannot be allowed due to the nature and the objective of the contract
  - Scheduled contract value of less than ¥10 million, etc.

(Article 37, Regulations on Contract Administration)

- In case of procurement of facility worth ¥5 million or more in projected price shall require the appointment of personnel for specifications planning, in order to define the specifications of the facility to be purchased. Notwithstanding, the person planning procurement of the set facility cannot be appointed personnel for specifications planning or personnel for technical inspection.

(Articles 2, 7 and 11, Guidelines on Specification Planning, Etc., Pertaining to Procurement of Large Facility, Etc.)

- If the contract value is less than ¥5 million, production of a contract may be omitted.

(Article 43, Regulations on Contract Administration)

- A negotiated contract worth less than ¥5 million in project price may not require production of a projected price report.

(Article 39, Regulations on Contract Administration)

- Negotiated contracts worth ¥5 million or more but less than ¥10 million in projected price shall require open counter estimate request.

(Article 37, Regulations on Contract Administration)

- For contract worth ¥1 million or more in total, estimate request based on oral inquiry or market value survey, etc., shall be implemented.

(Article 17, Regulations on Contract Administration)

 Depending on the type of competitive fund, etc., handling of contracts may differ from those established in KU regulations.

<Notes Related to Contracts Requiring the Special Attention of Faculty Members and Other Personnel>

(1) Attention must be paid to avoid imbalance in sources of information related to procurement. When applying for grant-in-aid in scientific research or actually starting procurement, do not provide information to specific suppliers only when seeking information related to the goods scheduled for procurement. Additionally, the projected budget shall not be communicated when giving out information.

(2) Do not engage in talks with suppliers in a closed-room setting. In order not to raise suspicions of corruption, etc., in the relationship between faculty members/personnel and specific suppliers, talks shall be held in open space.

(3) Personnel for specifications planning shall work on creating fair specifications. Personnel engaged in specifications planning must verify that the specifications proposed are necessary for the intended purposes of the researcher, and do not exceed the requirements of the intended purpose, as that may impede fair competition.

(4) When making an estimate inquiry, gather estimation documents, etc., fairly and appropriately. Ensure impartiality in the procedure, such as requesting submission of estimates from a number of suppliers.
When concluding a contract, take fair and appropriate action, coordinating adequately with administrative personnel, in order to prevent errors in handling.
5. Prohibited Matters

- Researchers must pay special attention to the following three that are prohibited in accounting.

- These deeds that involve production of fraudulent documents that do not reflect reality and submitting them to KU to illegally receive research funds are regarded fraudulent use of research funds, even when they are used not personally but as per research purpose.

## I. Fraudulent salary & reward payment

- Work hours for research collaborators are padded when entering in the work attendance timetable, to increase salary and reward payments and misappropriate research funds.

- Salaries and rewards that do not reflect reality are paid to students, etc., with the money received returned to the research office/Lab (as kickback) for use as office/Lab maintenance and management expenses.

#Kickback

- Recovery of all or part of salaries and rewards paid to students, even when reflecting actual work conditions, (coercive collection) is socially unacceptable conduct, regardless of whether this is done with student consent. For this reason, all deeds that amount to kickback are prohibited at KU.

- Moreover, it is illegal to use funds recovered in such a manner to pay other students who have actually worked.
II. Falsifying business travel and padding business travel expenses

- Notwithstanding coverage of business expenses from another organization, business travel claim is submitted to KU for the same trip, in order to receive duplicate payments.
- Notwithstanding the purchase of discount airline tickets, request is made to the service provider to produce estimate and receipt for normal fare, in order to pad travel expenses and use the extra to cover conference attendance by students.
- Business travel itinerary was changed from a one-night stay to a day trip, and business travel expense claim was made for the original itinerary, in order to embezzle money.
- Notwithstanding cancellation of business travel, false business travel report, etc., was submitted for fraudulent claim of travel expenses, using the money received for business travel other than for the research project in question.
- Expense claim was made to KU to cover a personal trip (returning to hometown, University seminar excursion, etc.), to embezzle money.
- Notwithstanding use of a tour package combining airfare and hotel expenses, the full amount was reported as airfare cost, to claim compensation and embezzle the money.
- A hotel expense claim was made and a standard amount was received for accommodation that was free after using mileage points accumulated through business travel, without declaring this fact.
- A researcher, who lives away from their family, stayed at his or her family home during a business trip. However, the researcher claimed the accommodation allowance, even though it was not required, and embezzled the money received.

III. Fraudulent order placement and deposit payment, document tampering

In order to keep unspent research fund, fraudulent order is placed to a supplier, who in turn receives the amount as deposit and manages the amount for delivery of laboratory animals, reagents, etc., when necessary in the next or subsequent fiscal term.

- In order to keep unspent research fund, instructions were given to the supplier to leave blank the date of the invoice for goods actually delivered in April, and payment is made from budget for the previous fiscal term.
- Because research funds are running out, instructions were given to the supplier to leave change the date of the invoice for goods actually delivered in March to April, and payment is made from budget for the next fiscal term.
- In order to cover expenses for purchase of equipment or facility renovation work that cannot be implemented with the expense category in question, the supplier is instructed to produce a fraudulent document that does not reflect the actual transaction, in order to obtain research fund from the University.
IV. Other prohibited matters

(Prohibition of personal bookkeeping of research subsidies from foundations, etc.)

Even when a subsidy is granted to an individual, all funds that pertain to activities at KU must be placed under accounting control of KU as a general rule.

(Inappropriate use)
Research funds that remain unspent at the end of the fiscal term are used for mass purchase of goods to be used in research for the following fiscal term.
⇒ Check whether the carry-over system applies. If not applicable, the fund must be returned.

Purchase of goods for which the Necessity and function in the research are unclear (such as unrelated books or electrical appliances that are not necessary for the research), or good which have been purchased without regards to being economical (such as fountain pens).
⇒ There are cases when expenditure from the research fund cannot be allowed.

Private use of mileage and other points accumulated via business trips and work-related spending
⇒ Be aware of the points originating from research expenses and university purposes, and use them towards your next business trip/work-related purchases in order to reduce costs.

(Column)

<<Recent trends in preventing research fund fraud>>

In recent years, the continuing issue of frequent fraudulent use of research funds has been attracting much social attention.
Therefore, the MEXT* amended the Guidelines on the Management and Audit of Public Research Funds at Research Institutions (Implementation Guideline) in February 2014 to indicate necessary matters in ensuring appropriate management of allocated funds.
Fraud prevention includes obligatory attendance to compliance education, collection of written oaths, collection of written oaths from suppliers, disclosure of fraud investigation results including names of those involved, and clear indication of possible criminal and civil consequences.

In response to this Guideline amendment, KU has fully amended the Regulation on Appropriate Management of Competitive Funds, Etc. at Kyoto University in September 2014 to promote appropriate use and management of competitive funds, etc.
Key measures include compliance education, obligatory submission of oaths, and formulation and execution of the Guidelines on Use of Funds (see item [22]).

*Ministry of Education, Culture, Sports, Science and Technology
6. Salaries and Rewards

The following describes payment of salaries and rewards in relation to research support by students, etc.

Salaries: Money paid as compensation for work under an employment contract

Rewards: Money paid for service rendered upon request (not protected by labor-related laws)

 ITEMS REQUIRING SPECIAL ATTENTION AND STRICT COMPLIANCE>
(1) Explanation to students, etc., including job description (salary) & work content (reward), period requiring work attendance (salary) & work period (reward), hours and payment per unit (salary & reward)
(2) Confirmation of the willingness to be engaged in the project (salary) & willingness to work (reward) of the student, etc.
(3) Production and administration of employment application (salary) & work execution request (reward) before work execution
(4) Confirmation and proof of actual work with work attendance timetable (salary) & work checklist, etc. (reward)
(5) Production of reward payment inquiry & completion report (reward)
(6) Check whether Individual Number (‘My Number’) submission is necessary, and if so, submission via the collection kit

# Payment of rewards other than the above

Payment of rewards for research guidance, lecture, etc., not described above requires proof of research collaboration, such as project report (completion report), pamphlet of lecture meeting, etc.
7. Travel Expenses

The following describes the payment of travel expenses incurred in business travel by researchers, etc.

<Items requiring special attention and strict compliance>
(1) Receive order or approval of person with travel order authority in advance, by submitting travel request, etc.
(2) Proof of actual business travel with business travel report, etc.
(3) Proof of actual travel expenses with substantiating documents

The flow and procedure of travel expense payment

</tbody>
</table>

- In order to prove that the claim is not padded, the traveler should submit substantiating documents, such as ticket copy, receipt, etc.
- The person should check the details of the claim without fail and submit, accompanied by the person's signature.

See travel expenses regulations regarding documents to be submitted when using Form 2 (travel expenses on invitational trip).

The following describes the process of purchasing goods, etc.

*Items requiring special attention and strict compliance*
1. Identification of the source of fund for purchase request & ordering
2. Adequate acceptance inspection after confirming actual goods
3. Storage of order record on paper media, even when order is placed without the use of order form

- The ordering party is to request or order purchase with the fund source identified clearly.
- Pay attention to economy when selecting the supplier.

<table>
<thead>
<tr>

- Researchers who are in charge of the budget or given the right to allocate budget from the budget officer (including leading researcher, research collaborator, etc., for the grant-in-aid for scientific research, etc.,) are able to place orders within the scope specified here.

- Purchases that cannot be placed by faculty members
  - Contracts worth more than the values specified above
  - Hiring employees, manpower service contract, construction work contract & payment of rewards
  - Please consult the pertinent counseling office of the department for further details.

- As a general rule, the inspection personnel is to come from outside the research office, etc., to which the ordering party belongs.

The flow and procedure of purchase of goods, etc.

- The ordering party is to request or order purchase with the fund source identified clearly.
- Pay attention to economy when selecting the supplier.

**Ordering**

- Order by faculty member
- Order by administrative office

**Supplier**

**Researcher**

**Inspection**

**Order received**

**Delivery**

- Goods received are to be inspected without fail by the inspection personnel other than the ordering person.
  - As a general rule, the inspection personnel is to come from outside the research office, etc., to which the ordering party belongs.
The ordering person, acceptance inspection personnel and inspection personnel are all granted authority to handle accounting-related functions.

Kyoto University Accounting Regulations (Summary)
Article 50  Obligations and Responsibilities in Accounting
1. The executive officers and personnel of KU shall fulfill the duty of care of a good manager in the execution of their duties, in compliance with applicable laws, as well as laws applied mutatis mutandis, related to financial affairs and accounting.
2. The executive officers and personnel of KU shall be held liable for compensation of damages, if damages are inflicted on KU, in violation of the provisions of the preceding paragraph, due to intentional act or gross negligence.
9. Management of Goods

The following describes how goods are to be managed after purchase.

**KU assets must be used with duty of care of a good manager.**

<Property worth ¥100,000 or more>
- The person in charge of use is held responsible for use of fixed assets under control, as well as daily management of such assets.
- “asset label” is to be attached on the goods in question, for assessment of the status of usage and storage with usage log, for proper management of the assets.
- Inspection of goods and survey of usage status (crosscheck between usage log and actual goods) are to be conducted each fiscal year to confirm status of the management of goods and accuracy of books and records.

<Supplies worth less than ¥100,000>
Of supplies not considered assets, computers, tablets, digital cameras, video cameras, TV and recording devices must be treated as having high liquidity, from the perspective of fraud prevention; therefore, these items must have the “asset label” affixed directly on them and be managed appropriately.

- **Fixed assets**
  - ¥500,000 or more
- **Low-value assets**
  - ¥100,000 or more
- **Supplies**
  - <Supplies worth less than ¥100,000>

**If no longer necessary**
- Appropriate disposal procedure (Disposal based on procedure designated for shared-use assets, etc.)

Report promptly in case of loss, reduction in quantity, damage or theft. Also, compensation for damages is required if damages are inflicted on KU, due to intentional act or gross negligence.

**If loss, reduction in quantity, damage or theft is found**
- Report to fixed asset manager
  - Liability (based on level of gravity)

<Warning>
There are cases of theft resulting from leaving the research rooms unlocked or when laptop PCs must be taken on business travel, etc., for education or research purposes.
10. Reimbursement

- If a KU faculty member or employee concludes a contract for purchase of goods, loan, subcontracting, etc., worth less than ¥100,000 for performance of his duties and pays for the purchase, the amount may be reimbursed provided that approval of the budget control officer, etc., is obtained. Obtain the approval of the accounting officer before the payment in the case of spending more than 100,000 yen.

(Article 24, Guidelines on Contract Administration)

**<Items requiring special attention and strict compliance>**

1. Reimbursement by students is not allowed as a general rule. (Reimbursement by students requires advance approval of the accounting officer.)
2. Restricted to goods worth less than ¥100,000 as a general rule. (Reimbursement of ¥100,000 or more requires advance approval of the accounting officer.)
3. Reimbursement claim form to be submitted **within 14 days** of the date of payment, accompanied by receipt, etc.
4. Confirmation of goods at the acceptance inspection site or acceptance inspection center is necessary.

---

**The flow and procedure Reimbursement**

- For faculty members and personnel
- Students exempted (There are exceptions, however)
- Confirmation of goods within 14 days of receipt of goods
- On-venue acceptance inspection site
- Delivery invoice
- Stamp
- Date & signature
- Acceptance inspection center
- Reimbursement claim form
- Receipt, etc.
- Administrative office, etc.

---

**For faculty members and personnel**

- Purchase of goods etc.
- Payment
- Reimbursement claim
- Within 14 days of date of payment

**Students exempted** (There are exceptions, however)

- On-venue acceptance inspection site
- Delivery invoice
- Stamp
- Date & signature
- Acceptance inspection center
11. Use of Corporate Credit Card

- Because the current KU temporary advance payment scheme requires coverage by individuals, the corporate credit card system has been introduced to reduce the financial burden.
- The system has not been introduced in some departments. Goods purchased with the corporate credit card will require confirmation of goods as in the temporary advance payment scheme.

<Items requiring special attention and strict compliance>
1. Restriction on corporate credit card use with competitive fund at end of fiscal term
2. Prohibition of use to cover transportation fares and accommodations, for which expense payment has been made.
3. Prohibition of use to cover conference participation fees that include meal expenses/reception party fees

The flow and procedure for corporate credit card use
- Purchase with a credit card
- Identity confirmation
- Credit card statement & invoice
- Payment

Restrictions may be imposed on expenses, such as subsidies and outsourcing, on the period of use, if it is in the period when expenditures must be finalized or due to deadline for submitting reports. Careful attention is required for each expenditure, due to the differences in provisions per expense item.

Please note that the card can be used only by the cardholder.

The ceiling set at ¥1 million/month
# Use is prohibited if value exceeds budget ceiling even when it is below the specified credit card ceiling.

Credit card usage report
Credit card used to be reported by the 5th of the following month

Credit card used to be reported by the 5th of the following month

The flow and procedure for corporate credit card use

- Confirmation of goods within 14 days of receipt of goods

When to use the corporate credit card
- Books
- Purchase of supplies (excluding supplies worth ¥100,000 or more per unit)
- Charges for car rentals, expressway tolls and gasoline during business travel
- Academic conference participation (provided the fee does not include meal expenses)
- rewards for academic paper contribution, publication & printing
- Payment to overseas parties that can be made with the credit card
- Personal use
- Transportation fares and accommodations, for which expense payment has been made
- Supplies worth ¥100,000 or more per unit
- Web auctions
- Banquet fees (including academic conference participation fees that include meal expenses)
12. Temporary Advance Payment Pertaining to Expenditure Prior to Funding

Under this scheme, KU, as the manager of competitive funds, etc., is able to grant temporary advance payment of expenditures under a subsidy has been unofficially been approved, a subsidy continuing from the previous fiscal year, etc., for swift implementation and continuity of research.

**Scope of researchers, etc., to whom temporary advance payment is granted**

1. Leading researcher, etc., who received tentative approval of new subsidy funding
2. Leading researcher, etc., who was notified of continuity of subsidy funding since the previous term

**Scope of subsidy, etc., for which temporary advance payment is granted**

Subsidies, commissioned research expenses, etc., from the national government, local governments, independent administrative agencies and other public-interest organizations

# Advance payment is not granted if the subsidizing entity is a private business, etc.

**Fund available prior to subsidy grant**

- Tentative grant approval
- Temporary advance payment
- Fund receipt
- Fund granted
- Research period

Purchase at all times possible
13. Standards on Food Service Expenses

Food Service Standards for Meetings, etc., Organized by Kyoto University (March 1, 2013, order by KU President)

<Expense ceiling>
Expense per meeting: ¥5,000 per person

<Standards for Food-Service Expenses at Meetings, Etc.>
Simple food and drinks to be served if there is an unavoidable reason, related to progress of the meeting, etc.
(1) Beverages and snacks at meetings, etc., held at KU
(2) Food and beverages served at a buffet attended by a large number of persons
(3) Food and beverages other than those described in (1) and (2) at meetings, etc.
(4) Food and beverages in university admission examination administration when there is exit control
(5) Food and beverages served at awards and other ceremony involving faculty members, personnel or students
(6) Food and beverage expenses for meetings, etc., attended only by KU faculty members or employees will not be covered, except in cases described in (4) and (5).
(7) Food and beverage expenses will not be covered when involving alcoholic beverage service.

* If compliance with the aforementioned standards is difficult due to extraordinary reason, approval of the head of the department, etc., is to be obtained by reporting explicitly the matter requiring special approval and the reason.
* The standards herein shall not apply if the source of research fund imposes restrictions on food service expenditures.

Food service expense coverage request to be submitted before the meeting, etc.
The accounting officer is to confirm with relevant persons or suppliers, etc., as needed.
14. Use of Grants-in-Aid for Scientific Research “KAKENHI” in the Following Fiscal Year

Grants-in-Aid for Scientific Research "KAKENHI" are classified into the following three.

1. Funding allocated as "Multi-year Fund"
   (Examples: “Scientific Research (C)”, “Grant-in-Aid for Young Scientists (B)”.)

2. Funding allocated as mixture of "Multi-year Fund" and "Series of single-year grants" (commonly known as “Partial Multi-year Fund")
   (Examples: “Scientific Research (B)” and “Grant-in-Air for Young Scientists (A)” adopted between FY2012 and FY2014.)

3. Funding allocated as " Series of single-year grants "
   (Examples: “Specially Promoted Research”, “Scientific Research (S)” and “Scientific Research (A)”.)

◆ Multi-year Fund (including “Multi-year Fund” provided as part of Partial Multi-year Fund)
   Monetary grant allocated as “Multi-year Fund” does not require carryover procedure, so long as the year falls in the research period.

◆ Series of single-year grants (including "Series of single-year grants" provided as part of Partial Multi-year Fund)
   Monetary grant allocated as "Series of single-year grants" for which carryover provisions apply may be used in the following fiscal year by undergoing the carryover procedure (by submitting one reason statement form).

(Coverage by the carryover system)
Monetary grants that can be carried over to the next fiscal year are expenses pertaining to the subsidized program that could not be completed during the fiscal year due to unavoidable reasons that could not be foreseen at the time of grant. Additionally, series of single-year grants that remain unspent at the end of the research program (surplus money) cannot be carried over to the next year.

Reason for carryover

(1) Various provisions pertaining to the program
   Resolution of problems either directly or indirectly linked to execution of the program became necessary and the research needs to be either postponed or suspended until they are resolved.

(2) Difficulty in obtaining materials
   If it becomes difficult to procure research materials according to plan

(3) Difficulty in conducting preliminary survey on the research
   If the research program must be postponed due to preliminary survey

(4) Difficulty in determining the research method
   If review into the research method comes necessary due to new knowledge, expansion in the scope of research, etc.

(5) Meteorological conditions
   Plan for survey, experimentation, etc., must be deferred due to extraordinary weather conditions, such as huge rainfall or snowfall, etc.

# "Adjustment fund" system (from FY2013)
The "adjustment fund" system can be utilized for research items to which only Series of single-year grants have been allocated, enabling use in the following fiscal year.
15. Rules on Use of Competitive Funds, Etc.

- Competitive funds (direct expenses) have expense items that do not apply to every funding program. Re-examine the details of each program in the application of expense items.

**Items applying on all competitive funds**

1. Prohibition of spending for purposes other than the research objective
   - Expenses allowed for competitive funds are restricted to those directly necessary for realization of the research objective.

2. Prohibition of spending outside the research period
   - Funds are granted within the period specified as the project period and must be used for research activities.

3. Prohibition of spending in combination with other expenses (spending as combined total)
   - Use of multiple number of competitive funds, due to fund shortage, is not allowed as a general rule.

4. Prohibition of purchase of alcoholic beverages, cigarettes and other nonessential goods for personal use

**Expenses not applicable to Grants-in-Aid for Scientific Research “KAKENHI”**

1. Expenses related to facilities in buildings, etc.
   - (Excludes minor installation expenses for goods purchased with grants-in-aid for scientific research)

2. Expenses in dealing with accidents or disasters that occurred in the course of the subsidized project

3. Labor cost & rewards for the leading researcher or research collaborators

4. Prohibition of combined use of direct expenses and "other expenses with restrictions on usage"
   - (However, purchase of shared facilities by combining a number of grants-in-aid for scientific research is possible under certain conditions.)

5. Expenses that are better funded as indirect expenses
16. Disciplinary Action, Etc., on Misuse

Disciplinary action is executed not only to "individuals" committing fraudulent use. The funding organization may impose penalty also on the "research organization."

**Disciplinary action against individuals**

[Disciplinary action in KU]
If disciplinary action is imposed in the form of **punitive dismissal, dismissal with instructions, suspension, salary cut, reprimand** under Article 48 of the KU Employee Work Regulations or even if such disciplinary action is not imposed, the individual in question will receive admonitory warning, strong warning or warning if the individual requires faithful execution of work and maintenance of discipline under the provisions of Article 50.
The supervisors (including the administrative heads of departments) of persons who commit fraudulent use, or who are indirectly involved in or tolerate fraudulent use, may be subject to punitive measures.

[Disciplinary action by the funding organization]
Each competitive fund has its own penalties, such as suspension grant application and reimbursement of funds including additional payment. Please check each competitive fund program for details. Regardless of whether misused research fund had been put to personal use or whether it was subsidy to an organization, **the researcher guilty of fraudulent use is held liable for compensation.**

[Legal action]
KU and the funding organization may file a criminal complaint or litigation under the Japanese civil code.

**Disciplinary action against research organizations**
The following penalties may be imposed on the research organization.

1. If there had been malicious misuse due to inadequate expense control, the research organization will be subject to assessment for reduction in indirect expenses, etc.

2. There may be suspension in competitive fund disbursement.

3. University corporation evaluation etc., may result in reduction of funds other than competitive funds.

**In addition to disciplinary action...**

In cases of fraudulent use, the name, job title and organization of the researcher in question is disclosed as a general rule, as part of findings of the investigative committee.

Serious damage is inflicted on both the researcher and the University, in terms of huge time and cost incurred in the investigation, etc., loss of trust of society due to media coverage, etc.
17. Restrictions in funding eligibility

It is determined by the "Guidelines on the Proper Implementation of Competitive Funding" (agreement of the liaison meeting of related offices and ministries on competitive funding, dated September 9, 2005).

(1) Restriction in funding eligibility in case of fund misuse for personal purposes

10 years

(2) Restriction in funding eligibility in case of fund misuse for purposes other than personal use

1-5 years
Determined by the details of misuse
Example: Restriction in funding eligibility to reflect the amount, number of years, etc., involved in fund misuse.

(3) Restriction in funding eligibility in case of Lack of Due Diligence#.

2 years maximum
# Definition of "Lack of Due Diligence"
Cases of negligence in responsibility as manager of research funds, even when the person is not involved in the fraudulent use of funds.

Column

«Lack of Due Diligence»

If you are the representative researcher for a grant-in-aid for scientific research, but do not properly manage or understand the way in which the grant is being used, you may be accused of lack of due diligence if a colleague or partner is involved in fraudulent use of the grant. For example, if a collaborating researcher is assigned to make official trip, but does not report any results or feedback upon their return, and is found to have falsified the trip, you may be accused of lack of due diligence and may be subject to certain funding eligibility restrictions, even if you were not involved in the fraudulent use of funds.
18. Cases at KU

Starting around 2000, money from Grants-in-Aid for Scientific Research and other funds was deposited with a supplier with which the offending party had close ties. This was found in a 2012 investigation conducted on money deposited with suppliers. Most of the money was spent on education and research, with only part used for personal purposes. The investigative committee was not able to confirm that the money was used for implementation of research themes, though it was spent for education and research. This was determined to be in violation of the rules on competitive fund usage (use in combination with other expenses and for purposes other than the objective) and was reported to the funding organization.

Action 1: Suspension of public research grants for 5 years from the funding organization
Action 2: Reimbursement of the amount identified as deposited in full, combined with payment of surcharge and arrearage

#Regarding surcharge and arrearage, Act on Regulation of Execution of Budget Pertaining to Subsidies, etc., applied on grants-in-aid for scientific research

The surcharge rate is 10.95% per annum
Arrearage is also 10.95% per annum

---

Reference
Falsification of accounts
Discovery of accounting irregularities (10 years later)
Delay of one year in reimbursement of funds...

Amount used fraudulently: ¥1,000,000
Reimbursement includes not only the amount misused but also:

Amount | Indirect expense | Surcharge
--- | --- | ---
¥1,000,000 | + | ¥300,000 | + (¥1,300,000 × 0.1095 × 10 years)
= ¥2,723,500 (amount to be reimbursed)

Arrearage:
+ (¥2,723,500 × 0.1095 × 1 year)
= ¥3,164,073 (amount to be reimbursed)

Penalty is tougher!!
Even after severance from KU, charges equivalent to penalty will be established, and reimbursement of retirement pay may be required! The name of the offender uncovered in the findings will be disclosed as a general rule!
**Case study of a recent fraud case at KU**

- Overview of fraudulent accounting
  - Requested and/or received from supplier bribery in forms of money, goods or “wining and dining” as a reward for advantageous and convenient treatment in the supply of equipment etc., and as a promise to continue such treatment in the future.

  - KU Professor Supplier
  - Provision of money, goods, dinner, etc.
  - Favorable treatment in equipment supply, etc.

- Requesting bribes for supplier, etc.  **NO!**

  - Coziness with Supplier
  - Submission of payment claim documents based on false schedule
  - Payment

- Overview of fraudulent accounting
  - Instructed students to create false work schedules, submitted payment claims to KU based on the false schedules, had the students give the received payment to the professor which he embezzled and pooled, and used it for parties etc. within the laboratory.

  - KU Professor Students
  - False salary/reward claims  **NO!**

  - Kickback/pooling of Rewards
  - Requesting bribes for supplier, etc.
  - Receiving bribes from supplier, etc.

- Kickback/pooling of Rewards
  - False salary/reward claims
  - Kickback

- Embezzled
  - Used for parties etc. within the laboratory

- (1) Instructed the creation and submission of false work schedules
- (2) Submission of payment claim documents based on false schedule
- (3) Payment
- (4) Gave up received payment <Kickback>
- (5) Embezzled
- False travel expense claims

Fraudulent use of research funds at the university

Recently, reports about the fraudulent use of research funds at Kyoto University are made every year. If a fraudulent use is discovered relatedly in the same lab or department, the research organization involved may be abolished.

Many different factors can contribute to such problems in research laboratories, including the following:

- A lack of interest in the activities of other members of the lab and poor information sharing, including the sharing of each other’s schedules.
- An environment in which it is difficult for those in weaker positions to speak out, including students and contractors.

We ask for your understanding and cooperation to ensure the proper use of research funds, and in making every effort to develop a good working environment in your laboratory.
19. Advisory Offices

The following offices provide advice about competitive funds, including information about regulations and administrative procedures. **If the relevant contact information is not shown in this list, please visit the office accompanied by Japanese-speaking staff.**

20. Reporting office

Reports on fraudulent accounting of competitive funds, etc., managed by KU are accepted at the following office.

**Audit Office, Kyoto University**

Yoshida-honmachi, Sakyo-ku
Kyoto City 606-8501

TEL 075-753-2170
Mail: 830naibukansa@mail2.adm.kyoto-u.ac.jp
URL: http://www.kyoto-u.ac.jp/ja/research/public/competitive/tsuho.html

[Office hours]
8:30 – 17:15 (break between 12:00 – 13:00)
on days other than the holidays listed below.
Saturdays
Sundays
Days designated as holidays under the Act on National Holidays (Law No. 178, 1948)
December 29 – January 3 of the following year
June 18 (Kyoto University Founding Day)
Monday, Tuesday and Wednesday in the 3rd week of August (summer break)

# When reporting a misconduct, the reporting person must be named explicitly, with the name of the person(s) engaging in fraudulent accounting and other acts involving competitive funds, etc., description of the irregularity, etc., and documents, etc., providing objective and logical proof of the facts must be submitted to the reporting office.

# Anonymous reporting will be handled as whistleblowing under the provisions of Paragraph 4, Article 13 of the Regulations on Integrity in the Management of Competitive Funds, Etc., at Kyoto University.

# If an individual reports fraudulent use that the said individual committed in the past to the organization, extenuating circumstances may be taken into account in disciplinary action, etc. (See Item 6, Article 3, of KU Regulations on Disciplinary Action)
# Reporting misconduct will not result in unfair handling of the reporting person.
# Personal information, such as name, etc., of the reporting person, will be used strictly at the least minimum necessary for contact from the office, etc., to the reporting person, investigation and other activities in handling the report and shall be protected appropriately.
KU's accounting-related regulations are the following. Be sure to comply with these regulations in handling accounting appropriately.
These regulations can be found for viewing on KU website.

[Regulations on use of facilities, fees, etc.]
22. The 5th Guidelines on the Use of Funds
(Revised in October 2017)
# The Guidelines apply to all public funds, etc.

Kyoto University (hereinafter called “KU”) hereby declare that KU has implemented
action for the proper management and administration of competitive funds, etc.,
(hereinafter called “proper management of competitive funds”)
based on the Regulations of Proper Management of Funds at Kyoto University
(hereinafter called “the Regulations”).
In accordance with the Regulations and the basic policy of the President on measures
to prevent misconduct,
the Kyoto University’s Guidelines on the Use of Funds
(hereinafter called “the Guidelines”) have been established as follows.

Article 1 Objective
The objective of the Guidelines is to secure the proper management of competitive
funds and to prevent misuse, etc., of the said funds at KU.

Article 2 Objective of the Guidelines
1. The Guidelines herein establish in detail the items that shall be prioritized by KU in
addressing causes of misconduct, based on the assessment and verification findings of
conditions pertaining to the management of competitive funds at KU, in accordance with
the basic policy on prevention of misconduct established by the President.
2. The Guidelines shall be updated as needed, with attention to the state of implementation
of the Guidelines at KU, the state of improvement and information received from the
Ministry of Education, Culture, Sports, Science and Technology, other relevant government
organizations and other organizations, as well as the state of response to such information.

Article 3 Code of Conduct for Faculty Members and Other Personnel
1. Researchers who are faculty members, etc., shall act in accordance with the following code of conduct.
   (1) Take pride in participation in research and be aware of its important mission
   (2) Do not misuse research funds
   (3) Do not involve in misuse research funds
   (4) Do not allow others to misuse research funds
   (5) Do not tacitly approve misuse of research funds
2. Employees handling research funds are to act in accordance with the following code of conduct.
   (1) Ensure that all researchers understand the Regulations and the Guidelines
   (2) Do not allow others to misuse research funds
   (3) Do not tacitly approve misuse of research funds
3. Faculty members and other personnel shall pledge compliance with regulations, etc., related to
   the use of research funds by submitting to the President a written and signed pledge specified
   in Paragraph 3, Article 10 of the Regulations.
4. Faculty members and other personnel shall not be able to engage in the management and
   administration of competitive funds when the aforementioned written pledge is not submitted
   by the date specified by the Vice-President for Research.
5. Should there be misuse of research funds by a faculty member or other personnel, disciplinary
   action will be taken, along with suspension for designated period of time from eligibility in research
   support programs at KU.
6. Should a faculty member or other personnel be involved or ignore misuse of research funds,
   disciplinary action maybe taken, along with suspension for a designated period of time from eligibility
   in research support programs at KU.
7. Should a faculty member or other personnel commit, be involved or ignore misuse of research funds
   due to inadequate dissemination of preventive measures, disciplinary action may be taken on the
   director in charge of the relevant department, etc.
Article 4 Responsibility for the Guidelines

1. The scope of responsibility in the proper management of competitive funds shall be defined in either Article 4 or Article 6 of the Regulations.

2. The scope of responsibility for the Guidelines shall be defined in Articles 4, 8, 9 and 11 of the Regulations.

The Scope of Responsibility in the Proper Management of Competitive Funds

Article 5 Communication

1. The Director in charge of the department shall be required to ensure communication of the relevant regulations and of the Guidelines to faculty members and other personnel in the department.

2. The Director in charge of the department shall assess the state of understanding of the relevant regulations and of the Guidelines within the department and, at the same time, submit Regular reports on the status of communication to the Executive Vice President for Research.

Article 6 Monitoring, etc.

1. The Promotion Team for the Guidelines shall conduct monitoring of documents, etc., at various departments for the assessment and verification of conditions pertaining to the proper management of competitive funds and for proper management of the said funds from the university-wide perspective.

2. The Promotion Team shall share information on issues that were found in various departments through monitoring and utilize the information for improvement of the Guidelines.

3. For the improvement of the Guidelines, the Promotion Team shall conduct verification of reports on the state of implementation of the Guidelines at each department and of audit findings by the Audit Office on activities pertaining to the proper management of competitive funds by the Director in charge of the department and report the verification findings to the Executive Vice President for Research.

4. The Executive Vice President for Research shall report to the President, based on the report received described in the foregoing paragraph.
Article 7 Guidelines on Causes of Misconduct
1. The guidelines addressing the causes of misconduct and concrete activities to be implemented for the Guidelines shall be established separately.
2. Should response to recurrence prevention measures on misuse of competitive funds become necessary or demand for improvement regarding misconduct is received from the funding organization, “significant implementation items” to be prioritized in the Guidelines will be designated by the Executive Vice President for Research, for further reinforcement in action at each department in dealing with misconduct.

Article 8 Action in Case of Occurrence or Discovery of Fraudulent Accounting, Etc.
1. Should misuse of competitive funds be discovered, the Director in charge of the department shall implement improvement measures related to the misuse, communicate the information throughout the department and report to the Executive Vice President for Research.
2. Should misuse of competitive funds be discovered, the Executive Vice President for Research shall conduct verification of the state of implementation of the Guidelines in the department in question and issue improvement instructions based on the verification findings.

Flow Chart on the Guidelines at Kyoto University

Article 9 Formation of Working-Level Council
If recognized as necessary by the Executive Vice President for Research, a working-level council shall be set up under the Promotion Team for decision-making and implementation of administrative procedures necessary in relation to the promotion of the Guidelines.
### Development of Systems and Environment for Promoting the Proper Management of Competitive Funds

#### Cause of misconduct

<table>
<thead>
<tr>

#The Guidelines describe concrete action to be taken to prevent misconduct, through greater awareness of preventing misconduct, appropriate use of research grants, etc.
23. Significant Implementation Items

The following items have been designated significant implementation items under the Guidelines, to promote further progress in university-wide action on fair and proper management and administration of competitive funds, etc.

(From October 2017)

1. Raising compliance awareness
   • Raising awareness toward compliance with laws and regulations through production/distribution of the Handbook, etc., e-learning training, explanatory meetings, etc.
   • Develop system requiring personnel to submit pledge of compliance with applicable rules, relevant regulations, etc., that had been communicated.
   • Promote greater awareness toward compliance through communication of the impact of misconduct on education and research activities throughout the University.

(KU website on proper use of research funds)
http://www.kyoto-u.ac.jp/en/research/grants/
# e-learning training is required without exception.

2. Discipline in conduct towards suppliers and assurance of transparency when ordering
   • Communication to suppliers, calling for adequate understanding of the ordering system and transactions with KU through proper transaction under the system. Also, measures reflecting conditions to be implemented, such as internal audit on risks such as unbalanced concentration of trade with certain suppliers.

3. Strict payment of salary/rewards based on actual work
   • Thoroughly familiarize workers with the administrative procedures of salary/reward payment to make sure payment claims are accurate and true, and promote understanding of the system by preparing and distributing a manual on reward payment before providing work to workers, especially when they are primarily students.

4. Travel expenses payment based on the genuine details of the trip
   • Provide instruction to faculty and staff members who will undertake official travel or invite official guests to ensure that they understand the administrative procedures for travel expense payment, and that they follow the proper procedures based on the genuine details of the trip or visit. Confirm the details of official trips and take appropriate action if a member repeatedly follows the procedures improperly.
24. Organization for the Proper Management of Competitive Funds

Objective (Article 1)

The objective is to establish requirements for proper management and administration related to handling of competitive funds in KU, as well as compliance training, to establish accountability as research and education organization and to support research activities by KU researchers.

President (Article 4)

Executive Vice President for research (Paragraph 1, Article 5)

Executive Vice President for Finance (Paragraph 2, Article 5)

Basic policy development (Paragraph 2, Article 4)

The 4th Guidelines for the Use of Funds

The Promotion Team for the Guidelines (Article 8)

The 4th Guidelines for the Use of Funds

Audit Office

Audit (Article 11)

Audit on proper management of competitive funds, the state of management and supervision, as well as state of compliance training in various departments.

Reporting office (Article 13)

Response to inquiries inside and outside KU on misuse of competitive funds.

Director in charge of the department (Paragraph 1, Article 6) [Dean]

Deputy director in charge of the department (Paragraph 3, Article 6)

Counseling office (Article 12)

Counseling office

Relevant divisions in each department

Result

Researcher

Research Promotion Division, Research Promotion Department

Promotion Team

Clerical staff (Paragraph 4, Article 8)

· General Affairs Department
· Financial Department
· Other departments of Administration
· Office to cooperate

Counseling office

Audit on proper management of competitive funds, the state of management and supervision, as well as state of compliance training in various departments.

 satisfy complaints from inside and outside KU on misuse of competitive funds.

Report, etc. ⇒ Investigation

Guidelines on investigation into misconduct in competitive funds, etc. mobilized for investigation.

KU directors, faculty members and all personnel involved in the management and administration of competitive funds

Obligations of faculty members and other personnel (Article 10)

(1) Compliance with relevant laws, KU regulations and other norms in the proper management and administration of competitive funds, acting with a high level of ethical standards and integrity.
(2) Voluntary action on prevention in step with the Guidelines.
(3) Participation in compliance training and submission of pledge on the provisions in the 2 foregoing paragraphs to the President.
(4) Cooperation in investigations into misconduct involving competitive funds

# “Faculty members and other personnel” refer not only to the executive officers and members of faculties of KU but also “all persons involved in management and administration of competitive funds.”

Compulsory attendance of e-learning program on proper research fund use

Pledge to be submitted without fail

(Provisions of the pledge)

· Compliance with rules and regulations of KU regarding use of public funds. (Compliance with rules after revision, if any)
· Refusal to misuse or be involved in misuse of public funds.
· In case of misuse, disciplinary action by the funding organization and KU, as well as responsibility under law.
Kyoto University provides the following research-related e-Learning courses. You are encouraged to take the courses as required.

### Proper Use of Research Grants
- **Purpose:** Prevent the misuse of research Grants by raising awareness about their proper use and providing information and instruction on proper accounting procedures.
- **Target:** Executive directors, faculty and staff members, and others involved in the operation and management of competitive funds.
- **Frequency:** Annual (mandatory) *May be required more than once, depending on the year of employment.
- **URL:** [http://www.kyoto-u.ac.jp/ja/research/public/competitive/e-Learn.html](http://www.kyoto-u.ac.jp/ja/research/public/competitive/e-Learn.html)

### Research Integrity Training
- **Purpose:** Prevent misconduct such as fabrication, falsification, and plagiarism by raising awareness about research integrity.
- **Target:** Faculty members, researchers, and graduate students
- **Frequency:** Every three years
- **URL:** [http://www.kyoto-u.ac.jp/ja/research/ethic/research_guide/kensyu](http://www.kyoto-u.ac.jp/ja/research/ethic/research_guide/kensyu)

### National Security Export Management
- **Purpose:** Prevent misconduct by raising awareness and providing information about security trade control through education on the relevant laws and regulations.
- **Target:** Faculty, staff members, and students who wish to take the course. (Mandatory for faculty members in science fields, including science, engineering, agriculture, medicine, and pharmacy, and for staff members involved in security trade control.
- **Frequency:** Every two years
- **URL:** [https://cls.iimc.kyoto-u.ac.jp/portal/](https://cls.iimc.kyoto-u.ac.jp/portal/)

### Animal Experimentation
- **Purpose:** Provide mandatory education and training to the managers of experimental animals, animal experimenters, and breeders.
- **Target:** Managers of experimental animals, animal experimenters, and breeders.
- **Frequency:** Every five years
- **URL:** [https://cls.iimc.kyoto-u.ac.jp/portal/](https://cls.iimc.kyoto-u.ac.jp/portal/)

### Basic Regulations Related to Life Science Research
- **Purpose:** Ensure the appropriate implementation of life science research by providing information about life science-related laws, regulations, guidelines, and internal procedures.
- **Target:** Faculty members involved in life science research, and students who wish to take the course.
- **Frequency:** Every three years
- **URL:** [https://cls.iimc.kyoto-u.ac.jp/portal/](https://cls.iimc.kyoto-u.ac.jp/portal/)
Fraudulent acceptance and use of research funds and misconduct in research activities leads to loss of public trust toward academic research.

This handbook had been produced for researchers in proper use of research funds. However, the content may be updated as occasion arises. Please check the KU website for the latest update.
