Kyoto University IAC Job Opening for Specially Contracted Staff Member

January 10, 2025

A. Job Title:

Specially Contracted Staff Member (Specially Contracted Fixed-Term Faculty and Staff)

B. Number of Positions:

A few positions available

C. Affiliation and Place of Work:

Innovation Platform Planning, General Operations Department Office of Institutional Advancement and Communications (IAC) Kyoto University

Innovation Platform Planning's office and IAC's head office are both located at:

International Science Innovation Building in Kyoto University Yoshida Campus in Sakyo-ku, Kyoto-shi, Kyoto, Japan

https://www.saci.kyoto-u.ac.jp/access/

Note:

- (i) There is a possibility of internal transfers within the IAC, depending on IAC's business needs, your performance and suitability.
- (ii) Work from home or other locations when telecommuting is permitted or ordered by the University.

D. Work Duties and Job Description:

The IAC is seeking a full-time employee titled as "Specially Contracted Staff Member," who will be responsible, as one of the IAC innovation producers, for developing infrastructure to form startups from our university and their overseas business expansion. Our infrastructure provides, and is expected to provide, (a) management teams, business management expertise, research funding, office space and facilities for spin-out startup companies or projects from our university, and (b) international business development opportunities through our acceleration programs and global networks for the growth of startups.

To carry out your mission, you will be engaged in the following tasks:

- (i) Building Human Relationship: Help with team formation for company creation by acquiring management personnel from the private sector. In addition, maintain and expand an internal talent pool for startups.
- (ii) Startup Incubation and Acceleration: Operate the startup incubation facilities and plan their acceleration programs globally.
- (iii) Build a Global Startup Network: Organize startup-related events in Japan and overseas (mainly Tokyo, Asia, and the United States), and collaborate with the networks that related businesses provide.
- (iv) Other tasks for the Innovation Platform Planning team related.

Due to the nature of the work, tasks assigned include business planning, domestic and overseas business trips, collaboration with our university's internal organizations and subsidiaries, and dealing with government agencies, public institutions, and private companies.
