

Scholarships for Privately-Financed International Students

The application process for scholarships from private foundations varies. Some can be made directly by the individual students, and some must be made through the applicant's university. Applications are generally accepted following admission to the university. (A few scholarships accept pre-entrance applications from prospective students who have already passed the entrance examination and are intending to enter the university.) Application information will be posted on our Information System or on bulletin boards for currently enrolled students. Please note that many of these scholarships require applicants to have a certain level of Japanese language ability and are highly competitive (ref.P.21)
