

Subsidiary Facilities

Divisions / Fields / Departments

学術情報メディアセンター

Academic Center for Computing and Media Studies (ACCMS)

Research and development of advanced applications of IT infrastructures and information media to enhance the education and research environment. Also provides support for the activities of the Institute for Information Management and Communication.

- Networking Research
- Computing Research
- Educational Support
- Digital Content Research
- Collaborative Research Laboratories

放射線生物研究センター

Radiation Biology Center

Fundamental research into the effects of radiation on living organisms.

- Radiation System Biology
- Mutagenesis
- Late Effect Studies
- Genome Repair Dynamics

生態学研究センター

Center for Ecological Research (CER)

Research into ecology and biodiversity sciences.

- Ecological Research

地域研究統合情報センター

Center for Integrated Area Studies (CIAS)

Research into inter-area relationships and inter-area comparisons utilizing integrated resources.

- Integrated Area Research
- Information and Knowledge
- Area Informatics
- Area Studies I
- Area Studies II

Subsidiary Facilities

Divisions / Fields / Departments

野生動物研究センター

Wildlife Research Center (WRC)

Education and research relating to wild animals, with the aim of contributing to harmonious coexistence within the human and ecological community on this planet.

Yakushima Field Station
Koshima Field Station
Kumamoto Sanctuary

Comparative Cognitive Science
Zoo Science
Conservation Biology
Human Evolutionary Science
Health and Longevity Science

高等教育研究開発推進センター

Center for the Promotion of Excellence in Higher Education (CPEHE)

Conducts higher education research and development in areas such as teaching and learning methods, curriculum design, assessment and evaluation, and educational technology and innovation. Also provides expert pedagogical support and advice for the advancement of education at Kyoto University and other institutions.

Higher Education Studies
Educational Media Studies

総合博物館

The Kyoto University Museum

Collects, preserves, and analyzes academic specimens and materials. Provides support for education and research activities, and publicizes research results. Undertakes research to facilitate the informatization of academic specimens and materials.

低温物質科学研究センター

Research Center for Low Temperature and Materials Sciences (LTM Center)

Provides a stable supply of cryogens, including liquid nitrogen and liquid helium, to support education and research on low temperature sciences. Engaged in original research and education relating to low temperature and materials sciences. The center's laboratories and research facilities are available for use by researchers from other institutions. Also provides support for the Agency for Health, Safety and Environment.

Low Temperature Physics
Molecular Materials Science
Interdisciplinary Application of Low Temperature
Research and Development of Low Temperature Functions

フィールド科学教育研究センター

Field Science Education and Research Center (FSERC)

Field-based education and research to comprehend the interaction among forest, ocean, and human biospheres. The center makes its field facilities available throughout the university and to other institutions, both nationally and internationally.

Ashiu Forest Research Station
Hokkaido Forest Research Station Shibechea Branch
Hokkaido Forest Research Station Shiranuka Branch
Wakayama Forest Research Station
Kamigamo Experimental Station

Tokuyama Experimental Station
Kitashirakawa Experimental Station
Kii-Oshima Research Station
Maizuru Fisheries Research Station
Seto Marine Biological Laboratory

福井謙一記念研究センター

Fukui Institute for Fundamental Chemistry (FIFC)

Based on the academic philosophy of Noble laureate Prof. Kenichi Fukui, the institute pursues research into basic chemistry and related sciences.

General Research
Theoretical Research

こころの未来研究センター

Kokoro Research Center

Combines the fields of psychology, cognitive sciences, neuroscience, and the humanities to pursue comprehensive research into the human mind.

文化財総合研究センター

Center for Cultural Heritage Studies

Comprehensive research and education for the investigation, preservation, and utilization of cultural properties, including the study and preservation of buried cultural properties on the Kyoto University campuses.

学生総合支援センター

General Student Support Center

Provides counseling services for students on a wide range of matters relating to study, daily life, work and job hunting, as well as support for students with disabilities.

大学文書館

Kyoto University Archives

Collection, preservation, and study of historical public records and other archival materials relating to the history of Kyoto University.

アフリカ地域研究資料センター

Center for African Area Studies (CAAS)

Publishes international academic journals relating to African area studies. Collects, organizes, and exhibits materials and specimens relating to the field. Organizes public seminars and symposia, and promotes international cooperation and collaborative research.

男女共同参画推進センター

Gender Equality Promotion Center

Research, planning, and implementation of various measures to promote gender equality.

白眉センター

The HAKUBI Center for Advanced Research

Implements and develops the Hakubi Project, an innovative program to foster the next generation of world-leading researchers.

学際融合教育研究推進センター

Center for the Promotion of Interdisciplinary Education and Research (C-PiER)

Supports the promotion of interdisciplinary research and education.

Career-Path Promotion Unit for Young Life Scientists
Advanced Biomedical Engineering Research Unit
Educational Unit for Adaptation to Extreme Weather Conditions and a Resilient Society
International Research Unit of Integrated Complex System Science
Unit of Computational Science
Green Innovation Management Education Unit
Nano Technology Hub
Unit of Web for the Integrated Studies of the Human Mind
Center for Japan-Egypt Cooperation in Education and Research
Education and Research Unit for Regional Alliances
Research Unit for Physiological Chemistry
Institute of Sustainability Science
Resilience Research Unit
Science for Innovation Policy Unit
Inter-Graduate School Unit for Sustainable Development and Survivable Societies (GSS)
Educational Unit for Studies on the Connectivity of Hills, Humans and Oceans (CoHHO)
Elements Strategy Initiative for Catalysts and Batteries
Elements Strategy Initiative for Structural Materials
Research and Educational Unit of Leaders for Integrated Medical System (LIMS)
Unit of Design
Kyoto University Asian Studies Unit (KUASU)
Human Security Development Educational Unit
Unit for Advanced Informatics Education and Education Informatization
Unit of Synergetic Studies for Space
Integrated Area Studies Unit
Primateology and Wildlife Science Unit (PWS)
Unit for the Super Global Courses
Social Science Unit for Research and Education
Education Program for Laureate Students with a Cross Formed by Academic Curiosity and Science Unit
Interdisciplinary Unit for Global Health
The Last 5X innovation Unit for a Smart, Happy, and Resilient Society
Infra-System Management Research Unit
Center for Enhancing Next Generation Research
Group for Admission System Development

Subsidiary Facilities

Divisions / Fields / Departments

京都大学学術研究支援室

Kyoto University Research Administration Office (KURA)

Provides support to researchers in their academic endeavors, develops and maintains an environment in which researchers can effectively dedicate themselves to their scholarly work. Provides support for the planning and implementation of projects, and facilitates outreach to the general public.

国際高等教育院

Institute for Liberal Arts and Sciences

Comprehensive planning, management, and implementation of the university's liberal arts and sciences programs.

International Academic Research
and Resource Center for Language Education

環境安全保健機構

Agency for Health, Safety and Environment

A university-wide organization overseeing matters of health, safety, and the environment. Operates in cooperation with the Research Center for Low Temperature and Materials Sciences and the General Student Support Center.

Environment Preservation Research Center
Radioisotope Research Center
Kyoto University Health Service

国際交流推進機構

The Organization for the Promotion of International Relations (OPIR)

A university-wide organization to promote international exchange. Engaged in the planning and implementation of international exchange projects and education programs. Provides diverse support for international students and researchers, as well as Kyoto University students and researchers travelling overseas.

The International Center

Office of International
Planning and Development

Subsidiary Facilities

Divisions / Fields / Departments

情報環境機構

Institute for Information Management and Communication (IIMC)

Planning, operation, and management of the university-wide information and communication infrastructure. Provides a wide range of information and communications technology-related functions and services in cooperation with the Information Management Department and the Academic Center for Computing and Media Studies.

IT Planning Office

図書館機構

Kyoto University Library Network

Compilation, development, and operation of library and academic information databases in cooperation with the university and faculty libraries. Maintains and develops an effective system to provide access to the university's academic resources by students, researchers, and other parties outside of the university.

産官学連携本部

Office of Society-Academia Collaboration for Innovation (SACI)

Planning and promotion of industry-government-academia collaboration, including collaborative research, international and regional cooperation, acquisition, management, and utilization of the university's intellectual properties, and the fostering of venture companies and entrepreneurship.
