

# KYOTO UNIVERSITY CAMPUSES

Kyoto University comprises three campuses (Yoshida, Uji, and Katsura) and a number of research facilities located throughout Japan.

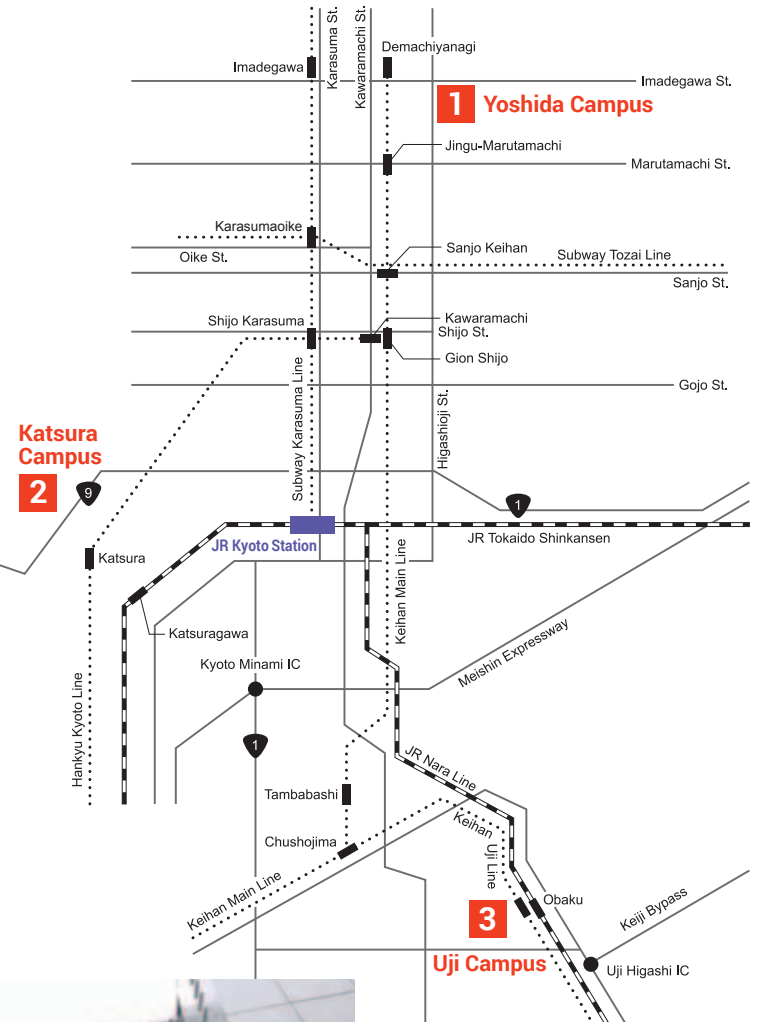

## 1 Yoshida Campus

The oldest of Kyoto University's three main campuses, Yoshida Campus is conveniently located in an urban environment 30 minutes by bus to the north-east of Kyoto Station. The university is continually updating and expanding the facilities at Yoshida Campus, which is divided into seven sections: the Main Campus, the North Campus, the West Campus, the Yoshida-South Campus, the Faculty of Medicine Campus, the Faculty of Pharmaceutical Sciences Campus, and the University Hospital Campus.

## 2 Katsura Campus

Katsura Campus, which opened in 2003, is located nine kilometers southwest of Yoshida Campus, and comprises four clusters of buildings overlooking Kyoto City. Conceived as a "Techno-Science Hill" for graduate studies in engineering and informatics, the campus is a locus where technology, regional culture and nature are combined in new ways to provide inspiration for academic minds.

## 3 Uji Campus

Located approximately twelve kilometers to the south of Yoshida Campus, Uji Campus is home to a number of state-of-the-art research institutes and centers including many large-scale testing facilities devoted to laboratory work in the natural sciences and energy-related fields.
