

Notice of Installation and Removal of The Certificate-Issuing Machines

From mid-February 2025, the Certificate-issuing system will be renewed. In accordance with this change, the installation locations of the machines on campus will be consolidated. The current models can be used for the time being, but will be gradually removed.

From March 13, 2025, we are planning to reduce the fees for services such as certificate issuance at convenience stores. We encourage you to take advantage of this.

Key:

- ★ New machine installation location
- △ Planned removal
