

Associate Professor, Dynamics of Foundation Structures

The Research Division for Earthquake Disaster (ED) of the Disaster Prevention Research Institute (DPRI), Kyoto University invites applications for an Associate Professor position.

The appointed associate professor is requested to conduct research in order to establish generalized theory for aseismic design of infrastructures based on theories and characteristics of earthquake ground motions, which contributes to the progress in aseismic design of geotechnical works, such as embankment and structure foundation, by means of analytical and/or numerical simulation, model experiment and observation.

The successful applicant is also expected to contribute to the Department of Urban Management, Graduate School of Engineering, Kyoto University. He/she is expected to have a Ph.D. or its equivalent and to be proficient in Japanese.

Applicants should prepare the following material:

- (1) Curriculum vitae
- (2) List of publications (divided clearly into refereed journal papers and others)
- (3) Copies of five relevant papers
- (4) Brief summary of research and related contributions (up to two A4 pages)
- (5) Statement of research plans (up to two A4 pages, including figures)
- (6) Recommendation letters or names and contact information of two references (include addresses, fax numbers, and e-mail addresses)

The complete application package must arrive by the deadline of 16 Sep. 2014 at the following address:

Selection Committee for ED Associate Professor, Dynamics of Foundation
Structures,
Administrative Office, Uji Campus,
Kyoto University
Uji, Kyoto 611-0011 JAPAN
